Take Smart Control

Energy Billing are specialists in the design, manufacture and installation of smart prepay devices and efficient back office billing and invoicing.

Energy Billing are:

- **Specialists in market-leading, smart prepay devices for your community of residents**
- **Providers of flexible and efficient invoicing and billing solutions**
- **The company who help residents take smart control of energy consumption**

Smart Control with Energy Billing

vOne^{eb} vThree^{eb}

Introducing Energy Billing's smart prepay devices

Our wirelessly operated devices, designed to monitor residential metering systems, can be installed during a new build or retro-fitted into existing energy schemes. The vOne is designed to work with one utility and comes with a button operated control panel. The vThree is designed to work with up to three utilities and comes with a multi-functional colour touch screen.

Our vOne and vThree prepay devices both have the option of App-based control and utilise the latest technologies for ease of use. Both can function in prepay and billing modes.

Easy ways for your residents to pay

Residents manage their finances by topping up their accounts using either the PayPoint network of 27,000 outlets, via standing order or direct banking, our 24/7 automated telephone payment line or our dedicated website www.energybilling.co.uk

Account Invoicing and Billing Back Office

The vOne and vThree prepay devices are supported by a comprehensive range of efficient back office account invoicing and billing solutions which can help recover any pre-existing account arrears and improve cash flow and scheme efficiency. Whether it's scheme utility billing or the collection of existing account arrears, with the UK's most comprehensive range of prepay devices for community heating schemes, **Energy Billing can help Housing Managers like you.**

Smart Prepay Control

App

Smart Control – using the Energy Billing devices with the new Energy Billing App.

Both the vOne and the vThree have the added option of **App control** through the resident's own mobile phone.

Our cutting-edge App has been designed for ease of use and our stylish interface features colourful graphics and intuitive functionality enabling users to enjoy a flawless customer experience.
